Assets Per Capita More Than Dade Co's Associations Combined

Progress of the Everglades Federal Savings and Loan was emphasized recently in the statement of a director of one of the biggest associations in the county.

"You're a bigger potato in your field than we are in ours. Your association's per capita assets are greater than the combined per capita assets of all associations in Dade County," he said. The comment was included in a letter to Hugh J. Bratley, secretary of the local association.

Bratley revealed that organization records show an average investment of \$313 for every man, woman and child in the city.

Story of the Everglades Federal Savings and Loan was progress since its beginning in 1933 with \$2,509 initial capital.

During 17 years of existence, the organization has made the capital into nearly a thousand times the original and has been responsible for assisting nearly 700 Glades families in securing homes.

Outward sign of the association's progress and growth is its modern, efficient home recently opened.

Cattlemen described the Glades Cattle Market sale Friday as "hot." Trade was active in all classes of slaughter and stocker animals with 49 percent going to the packers.

Top price of the sale went to Vandergrift-Williams Ranch, Pahokee, for a cow weighing 1,005 pounds. The animal sold for \$256.83. Roberto Arieta received \$4,982.27 for 78 calves.

In the transfer of 357 cattle and 160 calves, slaughter animals ranged from \$19 up to \$27 and slaughter calves sold for \$20 to \$27. Stocker steers brought \$11 to \$27 slaughter heifers \$18 to \$28 and calves \$21.50 to \$31.

### Earman Elected Chairman FCD; Driggers New Member

Joe S. Earman of Vero Beach was elected chairman and a \$33,000 budget was ratified last Saturday by the Central and South Florida Flood Control District. The budget topped \$190,000 from figures first proposed as a measure of economy.

Earman appointed Edward M. Daniel and Henry Driggers, a new member, as a committee to study the salary schedule and travel expenses of personnel. Earman suggested Dave Turner of Fort Lauderdale as chairman. N. J. Hayes, of Miami, was elected vice-chairman.

Outstanding among items of business, following reorganization and adoption of the budget, was the approval of the following objectives, as suggested in a letter from Stacey Rogers, general manager, and conveyed to the district engineer, corps of engineers.

1. Protection of lower East Coast areas from overflow from Everglades. 2. Protection of Lake Okechobee Agricultural area from flood runoffs; 3. Enclosure of major part of Okechobee Agricultural area.

## County Delegation Are Hosts To All Fla. Legislature

Speaker-designate B. Elliott, Parson John of the Bollinger Clan and prominent Johnny, our Senator at Tallahassee, will entertain the Florida Legislature on Saturday and Sunday with the dedication of the Lantana area as a climax on Sunday afternoon.

A hurried decision to invite the group by wire individually to the committee headquarters by Ralph Blank of the Resources Board and joined in by the City of West Palm Beach. The County Commission, C&SF, Flood Control District, organizations and individuals.

Guest fishing for all Golf Clubs, cards trips, special entertainment for the ladies, a banquet, and other social and recreational activities were provided the law makers, as well as privileges of the George Washington Hotel.

Hand-shaking, back-slapping, convivial social pastime was entertained in Tallahassee. The state and serious conversations were evident periodically thru-out the gathering as smaller groups gathered here and there.

Members of the Road Board were present, including the Chairman Mr. McKethan and our own Merrill Barber, County Commissioners, Cabinet members, but very few hangers-on and "gimmie" boys.

A few rows were ploughed for the County and for Flood Control, for a sincere appreciation of the generosity and graciousness of the County as expressed by the visitors.

There were an overwhelming majority of the State's legislators present to absorb the spirit of the occasion physically and mentally.

Our Delegation and the Committee that worked so hard to care for the party deserve a compliment and a "Thank You."

## THE HERALD'S TENTH BIRTHDAY

If age brings growth and knowledge, as wise men say, the Belle Glade Herald is a bigger and better servant of the community than it was ten years ago today.

Fifteen back editions, we find the first paper printed July 26, 1940, in tabloid size. In a bottom corner appeared, "with building operations, testing new machinery and other unfavorable conditions, it has been quite some time to issue the first edition. So, if there are some mistakes, please forgive and we promise better service when we are fully organized."

First days of the Herald were spent under Everglades skies. It probably had the distinction of being the only open air newspaper.

Reminiscing, Printer John Newton, who has been with the Herald since its beginning, says that only sheets of tar paper protected machinery from the elements. Scurrying to double duty, workers stepped from scattered cement slabs under the machines on to mud floors in between.

Newton, eldest staff member in point of service and age, celebrated his 80th birthday this year at a Herald party. He also is the oldest active printer in the county.

C. J. Asper, chief type thrower, also has been with the Herald through its infancy to its present. The two veterans tell many stories of the old times when the going got pretty rough.

The Glades and the Herald have grown and changed, but life went on then much as it does today. Following pages of the first paper say that the chamber of commerce had a supply of advertising stickers available, that persons holding government and foreign cards and a desiring salt pork and potatoes should report at the city hall and that citizens should register for the city election.

The Herald has seen more years of war than peace. It strived to serve as a link between the boys at the front and those at home through letters and news during the last war, and it reached local boys in service, keeping them informed on the home front activity. Again the Herald will reach those who are in the armed forces.

Announcing the Herald's ambitions, an article read: "The Herald aims to be an independent newspaper devoted solely to presenting all the news of this section fully and fairly, and to promoting the welfare of the people to the best of its ability."

The pledge stands now as it did then.

The general meeting of the women of the Presbyterian Church was held Tuesday evening at the home of Mrs. L. D. Bessent.

During the business meeting it was reported that the birthday gift had been sent to the adopted orphan, Betty Archer, at Northwell Orphanage, Clinton, S.C. The following appointments were made by the president, Mrs. J. E. Thompson; Mrs. L. L. Price, permanent historian; Mrs. Robert Roadman, Chairman of Circles No. 1; Mrs. K. C. Campbell, Publicity Chairman. Mrs. Thompson announced that the Thursday morning prayer services will be continued and urged all to attend. Announcement also was made that fairly night will be observed every other Wednesday night with a pot-luck supper at the church, followed by the regular prayer meeting.

These are from the 24 and 25-year-old groups, and additional calls will drop on down to the nineteen-year-olds.

General instructions haven't been given to Local Boards as yet, so as more men are called, lower age groups will be cleaned out for A-1's until all of those are exhausted. Then comes the scramble.

Deferrals, exemptions, etc., will then be taken up and decided on regulations now being readied. All persons subject to the draft are urged to get their papers in order; addresses should be given to your Draft Board. Any person not answering Board mail in a certain length of time are listed as "delinquent." Any delinquent has no voice as to deferment or exemption—there's only one route, and that is induction. Be sure to let your Board know where you are and answer any letters right now, unless you want "The Man" after you with only one destination—induction.

### Mayor Rabin To Be Director Of Local Defense Program

Aware of the immediate importance of forming a Civil Defense Organization here, a large representation of citizens and public leaders drew up a skeleton plan at a public meeting Monday night in the city hall.

The organization is part of a master plan existing on national, state, county and community levels. It is to operate in any civil emergency which might arise including enemy action, domestic disturbances, hurricanes, floods, and epidemics.

Mayor Harold Rabin, organization director, stressed the seriousness of the situation and the importance of an efficient Civil Defense Organization.

With the organization outlined, Mayor Rabin stated that detailed plans will be developed pending further instruction and information from the county and national organizations. He said that meetings will be called when necessary.

### Organization structure as outlined at the meeting follows:

Director—Mayor Harold J. Rabin; Executive Committee—city commission, C. M. Greene, Ernest H. Fiedler, Dr. Herman Baugh, F. L. E. Will (Health), Junius Harris, C. T. Pennington (street department), W. C. Young (Red Cross), and W. C. Taylor (Negro quarters). Deputy director of operations—T. R. Allen; Public relations—J. Tom Watson and Miss Paulette Blank.

One Killed; Two Injured In Wreck

Ray Cook, 17, was killed and Charles Tryon, 17, and J. T. Lamb, 16, all of Belle Glade, were injured when their car skidded on wet pavement and side swiped four trees on the Palm Beach Road just west of the Experiment Station, about 2 p.m. yesterday. Cook was driving.

The three accident victims were rushed to the Belle Glade Memorial Hospital where Cook was declared dead on arrival. Tryon was treated for a head cut and released and Lamb was admitted for abrasions of the nose, contusions and possible concussion. His condition is satisfactory, according to Dr. Herman Baxt, physician in charge.

Front portion of the car was completely demolished, and the motor was thrown against a tree. The Berry Funeral Home is in charge of arrangements for Cook.

## Concrete Mixing Plant Operating For Glades Folk

It ain't philanthropy; it's progressive business! Two Glades business men have sold themselves so strongly on the substantial economic growth and future of the Glades that they have stuck their necks out financially to acquire machinery and construct a plant for mixing concrete to be sold to Glades folks.

This gives the Glades the same advantage enjoyed by builders along the coast in having mixed concrete delivered to the job when and as it is wanted. If there is a special mix wanted on the job at a specified time that can be had.

Of course, you will be charged for the mix, but it must be, and usually is, in line.

It's working to the advantage of the contractor and property owner in other places and certainly will for those in the Glades.

The plant is located at the Cattle Auction Market.

Shootin' Blanks

It's summer time and the living is easy for some. But this reporter is having trouble. After walking down the street yesterday morning, she decided the populace have all vanished to foreign seaports—all except one.

Doctors gotta have patients, merchants gotta have customers and lawyers gotta have clients. It follows, newspaper reporters gotta have news. And this reporter is having trouble. There are only two things to worry about. Either you get well or you die. If you get well there is nothing to worry about. You die, there are only two things to worry about. (Continued on Page 4)

 East and West  
 East is West and West is East, for the two have met in a gigantic struggle on the Korean battleground.  
 Last week we emphasized that time and space are running out, that Korea on the opposite side of the world is close to Belle Glade.  
 Recent developments prove the statement. A week ago three of the city's young men, full of the sparkle and enthusiasm belonging only to health and youth, came into the office with army recruiting officer, Sergeant Genova. They had volunteered for service in the Army Air Corps.  
 We claim these boys. They are from our town, and our thoughts and prayers are with them.  
 War is without decency, spirit, reason or mercy, yet we are engaged in a conflict because we feel we must.  
 We are in the position of praying for peace while preparing for war. Plowshares of peace are being beaten back into implements of war.  
 Prophecies of the written Word remind us that "Peacemakers shall inherit the earth" not those who encourage war and strife.  
 While we must prepare for war with vigorous efforts, we should remember that war is a negative not a positive action. Through war, man has everything to lose and little to gain.  
 Peacemakers of our country have done much, and their work is not forgotten or entirely without success.  
 Cynicism over their apparent failure is unwarranted.

## FLORIDA POWER & LIGHT COMPANY

## In this case FEELING IS BELIEVING

No, the eye does not tell everything—not in this instance. True, it tells you ROADMASTER is smart. It tells you it's big. It shows, if you watch closely, that this brawny beauty rides level and unperturbed even when road-roughness has its wheels fairly dancing.

A glance may even indicate how much lolling comfort there is here—what wide-open freedom passengers and driver know in this gay traveler.

But how can the eye tell you how you feel touching off the great power that's under this broad bonnet?

How can it reveal the silken, swift-mounting surge of oil-cushioned take-off—smooth, silky, un-

broken, as Dynaflo Drive works its magic?

Even when you watch a ROADMASTER settle down to a long steep pull and crest the top going away, how can it tell you what thrill your spirits get from such ability?

And what can it say of the life that's yours traveling in a beauty that catches all eyes, swivels passing heads, marks you by its very lines as traveling in as fine a car as any man can ask for?

No, these things you have to feel

for yourself, and we're delighted to help you do so.

Your Buick dealer wants you to know about ROADMASTER first-hand—wants you to drive it, try it, feel it out.

It doesn't cost a cent to arrange such a trial. It can do a lot toward opening your eyes to the day's highest standard of fine-car and fine-car action—not to mention "why pay more?" prices.

How about seeing your dealer right away?

Only BUICK has Dynaflo-Drive\* and with it goes!

about. Either you will go to heaven or hell, if you go to heaven there is nothing to worry about, but if you go to hell, you'll be so busy shaking hands with friends, you won't have time to worry.

The worry worse might serve to bolster the poor housewife who is confronted with the notorious rising food prices. Prices have soared to the high- est level since September 1948, according to a University of Mi- ami index.

A local grocer recently re- marked that he is having a hard time making circulars at- tractive since everything is so high.

Just add a little more water to the coffee, wites, and re- member the verse.

Rising prices are reflecting back to the producer as shown by the Glades Livestock Market last Friday. For many here it's a profit and loss situation, and the two might equal. Pity the poor big city salaried work- er. Everything adds up on the minus end for him.

Belle Glade has a new busi- ness establishment. The ad- vancement says, "Seminoe Dry- ing and Milling Co. We buy corn or grain and dry corn."

Some people wonder whether the owner grinds it or distills it. For clarification see Charlie.

**George Wedgworth Obtains**  
High Scholastic Average

George H. Wedgworth, son of Mrs. Ruth Wedgworth Tim- mons, was among 600 students obtaining high scholastic hon- ors during the spring quarter at Michigan State College, ac- cording to Registrar Robert S. Linton.

The names of students achieving better than a 2.5 av- erage, out of a possible 3 point, are posted on the Dean's List in the Union building. A 2.5 grade point is comparable to a B plus average, Linton said, and a student who maintains a 2.5 during four years of college is graduating with high hon- ors.

**Playground Tournament**  
Registration Opens Aug 4

Registration for the play- ground tennis, croquet, bad- minton, checkers, ping pong and shuffle board tournaments will open July 24 through 29, according to Coach Doug Leav- itt, head of the summer re- creation program.

Ping pong and checker tour- naments will be broken down in- to age divisions including six through eight, nine through 13 and 14 through 18 years. Other tournaments will include all ages, says Leavitt.

Prizes will be awarded win- ners August 4 at the first an- nual playground picnic.

**Negroes Drown While Swimming**

Two Negroes from Hudson's Farm quarters near Bean City, were accidentally drowned Sunday shortly after noon while swimming in the Rim Canal off the government dike near Observation Point.

John Henry Jones, age 34, and son Ruford, age 10 were the victims. They had gone swimming with Eugene Harris and two sons. John Henry took his son on his back into the water to teach him to swim and Eugene reported that they went down and did not come up. He made an attempt at rescue and failed.

He summoned help. Deputy sheriffs Gibb Gross and Frank Prevorse and Chief of Police R. C. White responded. The body of the father was recovered from 35 feet of water about 2 o'clock by use of grappling hooks.

J. A. Henderson, Y. E. Smith, and Vernon Henderson of Lake Harbor, Sam Berry were among those at the scene and Vernon Henderson, Junior Dean and others continued diving for the child's body. It was brought to the surface about 3:10 by Buster Lowe, a Negro from Belle Glade.

The bodies were taken to the Taylor Funeral Home at Belle Glade to make arrangements for burial. Survivors are his wife Ella May Jones, two daughters, Orlie and Bobbie Ree, four sons, Eddie Gene, Ruben James, Wilford and Hazel. The family came from Dawson, Ga., two years ago and were employed by Frank Wilson at Hudson's Farm.

**Woman Injured In Auto Accident**

An out of state woman was injured in a highway accident west of Lake Harbor on State Road 80 Saturday afternoon when the car in which she was a passenger accidentally struck the rear end of a pick-up truck belonging to Joe Friedheim and driven by Joseph Crouch of Lake Harbor.

According to Deputy Sheriff Gibb Gross, who happened to be in Lake Harbor at the time and was at the scene of the accident, the pick-up was traveling at a speed of about 15 miles per hour and the Alabama car hit the rear end.

Highway Patrolman B. W. Brinson made the official investigation. Mr. and Mrs. Parker Fuller, their son, her father, Sam Martin, all of Tusculossa, Ala., and a nephew Gene H. Ingram, U. S. Navy stationed in California were enroute to Miami on vacation when the accident occurred. Mrs. Fuller was thrown against the windshield and had her neck cut. She was rushed to the Belle Glade Hospital by ambulance where 14 stitches were necessary to close the wound. She was later released from the hospital and the party continued on their way to Miami.

**EDUCATION DEPT. PLANS MORE PRACTICAL COURSES**

The State Department of Education's plan to bear down a bit more on courses designed to help pupils meet life's problems is heading in the right direction.

We believe that School Superintendent Thomas D. Bailey is right in wanting students to receive some instruction "in the areas of life in which they will participate as adults."

There is a vast quantity of factual information even the best student will soon forget after high school or college. Those subjects with which the student must continually deal in life, will be remembered through repetition of daily living. Therefore, it would appear worthwhile to teach at least the most important subjects which

will help the student with living.

An educational program should be somewhat flexible to meet the changing needs of society. The need for more emphasis on more areas of practical preparation for successful and happy living is apparent. A well-balanced mixture of the purely academic with the technique of everyday living will lead to better citizens of the future.

**WHO'S TO BLAME?**
